This is the admin page, here we can see different buttons.

Dashboard:

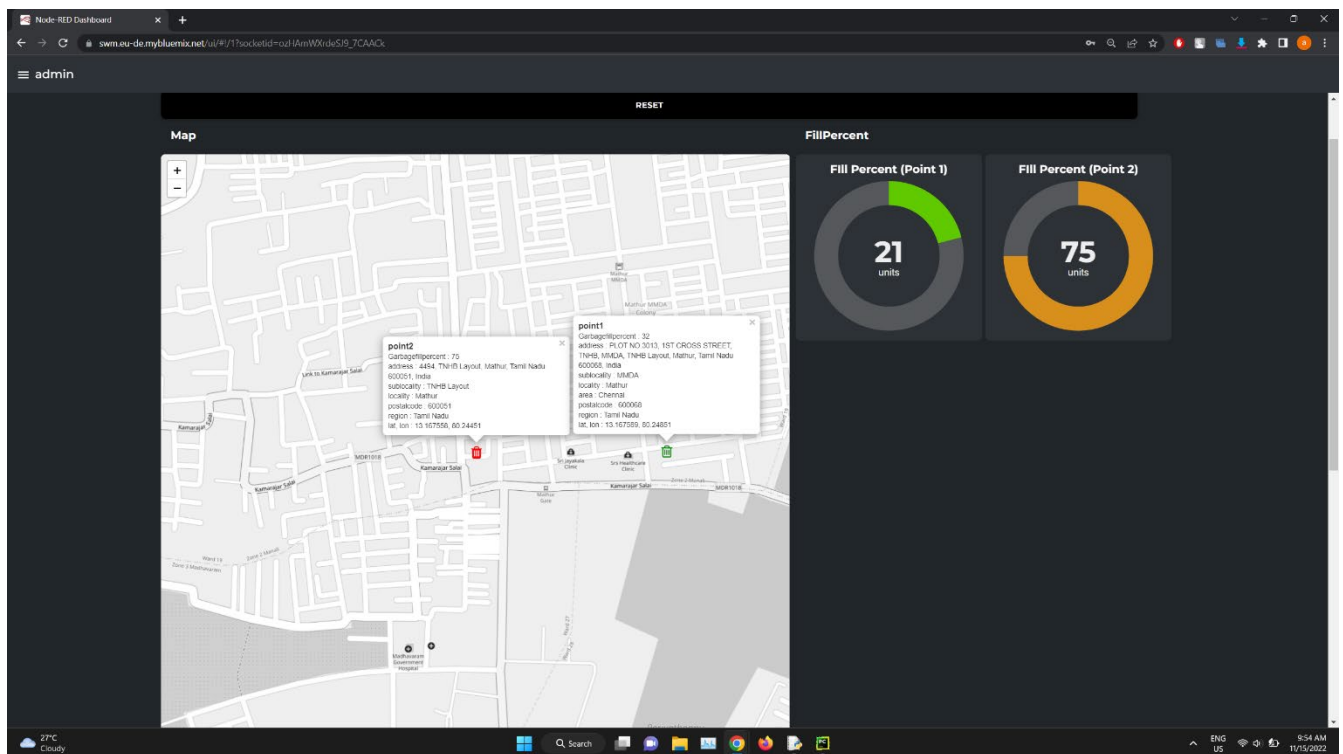

Note: Here I have used two dustbins. So, we can see both of their Trash Fill percent in their particular location.

By clicking the dashboard button, we can view the dashboard.

Here we can see the map and the Fill percent for both the garbage bin.

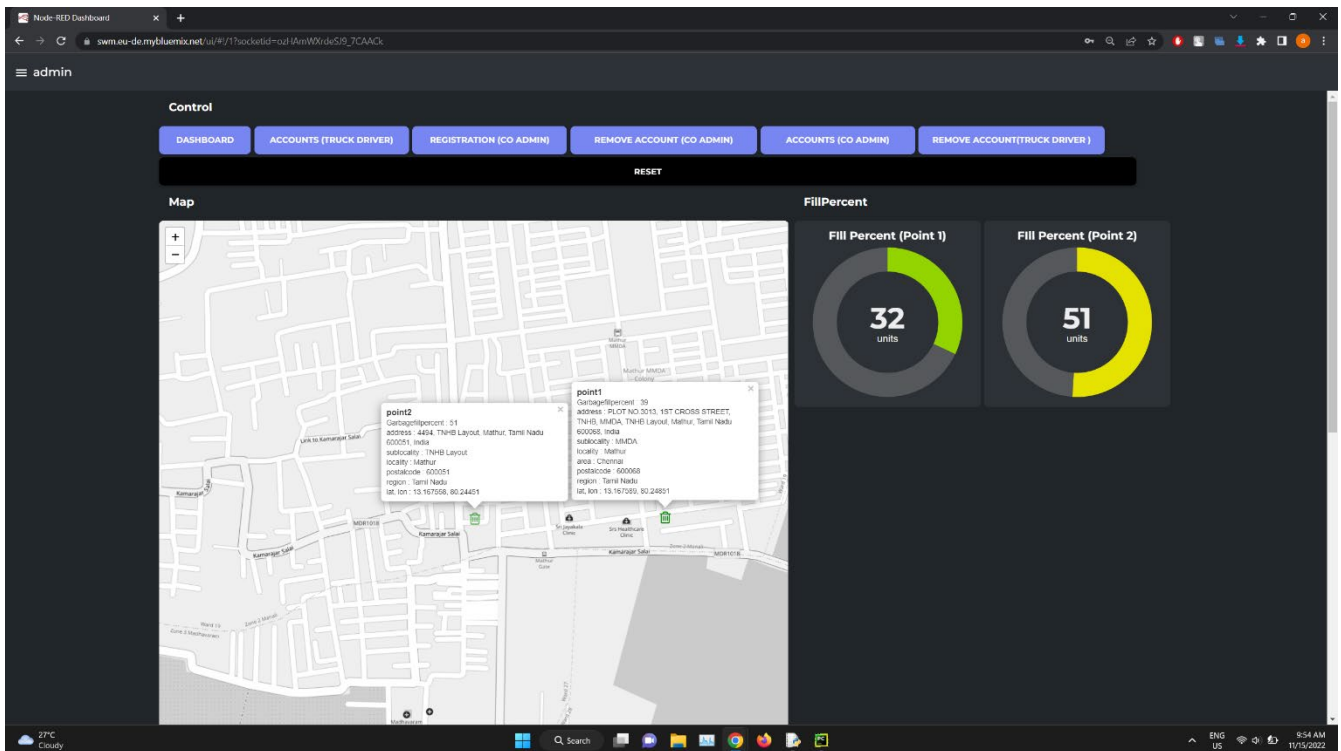

By clicking on the icon in the map we can see the details like

- Fill percent
- Address
- Sub locality
- Postal code
- Region
- Latitude, longitude

Note: Here once the bin level crosses their threshold level (here I have set as 60%) the icon colour changes to **Red**. if it is below the threshold the icon colour changes back to **Green**.

Here we can also see the Gauge where the Fill Percent of each Garbage bin is shown.

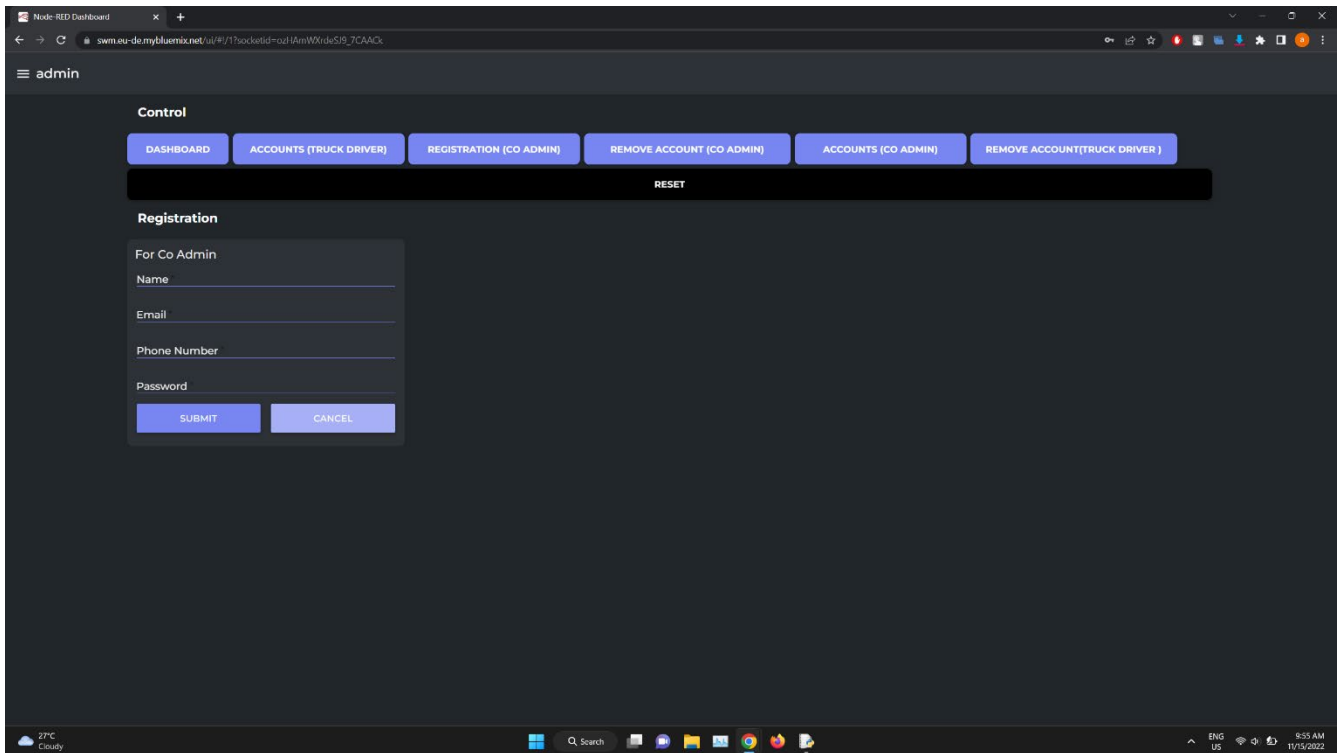

Here we can see the Table where it shows the last filled Timing (i.e., once the garbage bin fill to 100% the table is being updated with their timing)

The screenshot displays the Node-RED Dashboard interface. At the top, there's a navigation bar with buttons for 'DASHBOARD', 'ACCOUNTS (TRUCK DRIVER)', 'REGISTRATION (CO ADMIN)', 'REMOVE ACCOUNT (CO ADMIN)', 'ACCOUNTS (CO ADMIN)', and 'REMOVE ACCOUNT (TRUCK DRIVER)'. The 'Table' section contains a table with columns for 'Name', 'Time', 'Date', 'Locality', and 'Address'. The table lists the last filled timing for each garbage bin. The table is as follows:
